» **HP PhotoSmart 335**
Vibrant 4x6's in one touch
~~\$120.00~~ | now **\$99.99****

It's true! *SpencerLab* conducted a study & found that HP printers using HP Vivera Inks created better looking pictures than the photo-lab.*

That's right! 198 people like you, on three continents, were asked to rank photographic prints for image quality. They compared prints of five different digital photos printed through conventional processing and through a variety of inkjet print systems.

HP printers with Vivera Ink and Premium Photo Paper produce photographs that exceed traditional photo processing.
